**AM INDUSTRIES**

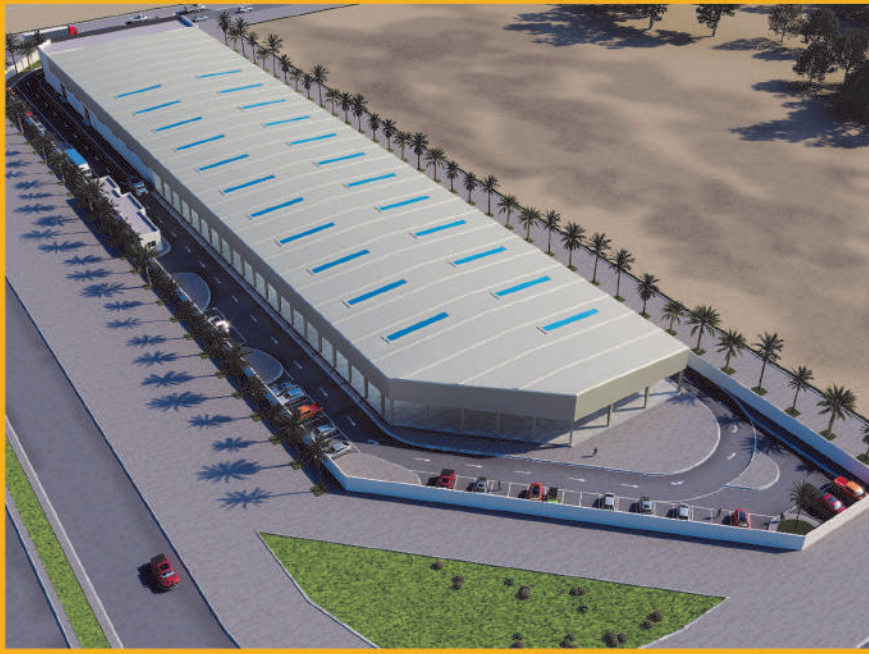

L.L.C.

INVENT THE FUTURE

COMPANY  
**PROFILE**

# BUSINESS INTRODUCTION

AM Industries has been established under the leadership of Ahmed Sæed Sulaiman Al Mazroei, who Inspiring on business vision to develop novel concepts and scale up the ideas into commercial production.

AM Industries having a visionary leader, a team of professionals, and state-of-the-art machinery that work altogether to convert the most sophisticated concepts into reality. We aim to serve the industry with quality work and timely delivery. AM Industries continually works to improve its systems in order to streamline costs and exceed customers' satisfaction.

The Research and Development division develops Design concepts, prototypes for various application ranges from defense applications, safety systems for the police, Construction Industry, Oil and gas filed, General engineering Industry.

### Our Mission

AM Industries' mission is to provide innovative machines and robots with high-quality and timely delivery using the latest methods and tools. We always work hard to improve our workspace and work methods to provide the best customer service in the UAE.

### Our Vision

AM Industries seeking to innovate the latest devices and equipment in the industrial and technology fields, believing in the importance of providing facilities to citizens and workers in these sectors, and seeking to raise the name of the UAE as a leading country in this

## Our Timeline

2013 Incorporation with small team

2014 Presence in Defense products, Award of business from Ministry of Defense UAE

2016 Award of business from Police department in Safety, Security Solution

2020 Award of Shooting & Simulation Projects

2023 23000 SQ.M Manufacturing facility | 100+ Professional & Skilled Resource |

1,226  
Innovation

1,552  
Products

1,000  
Awards

# CREATIVE TEAM

## AMI

**Developing novel concepts and that  
scale-up the ideas into reality.**

To convert the concepts into reality, AM Industry has  
a visionary leader, a team of professionals and state  
of the art machinery.

---

**(Eng.) Ahmed Saeed Sulaiman Al Mazroei**  
**Founder & CEO**

Mr. Ahmed Saeed Sulaiman Al Mazroei is the founder of the AM Industries, who through his vision and childhood dreams conceived the incorporation of this company.

Mr. Ahmed is a son of this soil, born in 1980, a first-generation entrepreneur in the UAE, recipient of many national awards for his initiative and innovations.

He incorporated in 2013 AM Industries to develop novel concepts and to scale-up the ideas into operational. Under his leadership, this company is growing faster in the UAE region in different business verticals, ranging from Defense, Construction, Government Projects, Infrastructural, Oil and Gas.

He is leading 100+ professionals, as a Sole Proprietor in terms of Investment, generating remarkable business and expanding more.

He is inspired by technology, upgrading his facilities continuously, adding efforts on research & development to bring solutions to customers and striving for AM Industries to be a unique and customer-preferred company.

He builds the Brand "AMI" stands for its core values and uniqueness in the UAE business segment. He is an active personality in CSR activities, a key note speaker on many business forums, Universities, Educational Institutes, Government departments & social media.

# OUR CAPABILITIES INNOVATION CENTER

Innovation center is the reach and development division equipped with state of art technology development in Mechanical & Electronics application.

A team of high caliber Engineering professionals, Skilled technicians with CAD CAM software, Manufacturing facilities continuously striving on new products development.

This division Success foot print and focus on the following areas,

Unmanned ground vehicle

Shooting Products & Solution

Shooting Simulation

Armored Solution

System Integration

Custom made solution for customer specific requirement

# OUR CAPABILITIES SHOOTING SOLUTION & SIMULATION

Innovation center from its capabilities role out various products under Mayadeen brand for the live fire shooting solution. Few of our products listed below,

- Mayadeen Pop up serious Infantry targets
- Mayadeen Moving Targets
- Mayadeen Lomah targets
- Mayadeen Shooting Simulators
- Mayadeen Shooting Range
- Mayadeen Rover
- Mayadeen Minime
- Mayadeen Weapon Station
- Mayadeen Maintenance of Shooting Targets
- Mayadeen Training Solutions

# OUR CAPABILITIES

## SYSTEM INTEGRATION DIVISION

System Integration division specializes in designing and building Electrical Harnesses, Tactical PDU, Electromechanical assemblies, Electrical and Electronic control panels, Customized MIL Cables, MIL Connectors. We also specialize in HF, VHF, UHF, Intercom system integration.

Few of our products in this category listed below,

### MIL STANDARD PRODUCT

MIL standard Rugged PDU (Power Distribution Unit)

MIL standard AC and DC distribution box

MIL standard Tactical device and terminals

MIL standard Rugged Communication terminals

MIL standard Radio Racks

Shock proof Cabinets and box assemblies

Radio mounting brackets and supports

Convoy lights

Power cables

Radio-Telecom cables

Wiring harnesses

Customization of cables

MIL standard circular connectors

Contacts

Connector shells

MIL standard cable management accessories

# OUR CAPABILITIES

## RAPID PROTO-TYPE

## DESIGN CENTER

A team of engineering professionals equipped with CAD CAM software, Scanner, 3D printer and in house manufacturing facilities to design and develop Rapid proto type, first off Products to address end to end customer's requirement in short range of time

After Proto type & first off product development & functional test acceptance, we have scalable manufacturing model to make One unit to Batch & Mass Production

Cost effective solution, Standatization, Quick deliveries, Products Quality are our Objectives

Facilities we are having,

3D model Software – Solidworks and other software

Work Station, Networked Systems

3D Printer – ABS, PLA etc.

Scanner – Artec eva Scanner for large profile to 3D model

Supported with In house CNC machining center & Production Infrastructure

# OUR CAPABILITIES SHEET METAL FABRICATION DIVISION

To Convert the Idea's into operational, company has in build manufacturing facilities for precision fabricated products & sub-assemblies.

Well experienced specialists are available to support programming, setting & operation of the high end Laser machines and conventional machines.

Following facilities are under Sheet Metal Fabrication division

Fiber Laser Cutting Machine

Robot welding Machines

Fiber Laser Welding for Precision welding

CNC Sheet Metal Bending machines

Water Jet Cutting Machines

Plasma Cutting Machines

Oxy- acetylene Gas Cutting

Sand Blasting facilities

MIG Welding Machines

TIG Welding Machines

Metal Arc Welding Machines

Magnetic Drilling Machines

Push Pull Type Torch MIG welding for Aluminium Welding

Hydraulic Presses

Universal Iron Work

3 Roll forming machines

# OUR CAPABILITIES PRECISION MACHINING DIVISION

To Convert the Idea's into operational, company has in build manufacturing facilities for high precision machined products & sub-assemblies.

Well experienced specialists are available to support programming, setting & operation of the high end CNC machines and conventional machines as well.

Following facilities are under machining division

3D CAD CAM Software's

CNC Milling Machines – 4 Axis

CNC Milling Machines – 3 Axis

CNC Turn & Milling Machines

CNC Turning Machines

CNC Engraving Machines

Conventional Lathes

Conventional Milling Machine with Digital Read Out

Radial Drilling Machines

Tapping Machines

Band Saw Cutting Machines

Hot Zinc Die Casting Machines

Vibratory barrel Finishing machines

# QUALITY SYSTEM

إيه إم للصناعات  
AM INDUSTRIES  
L.L.C.

## QUALITY OBJECTIVES

When it comes to quality policy, AM Industries Factory is committed to:

- Provide high-quality manufactured products.
- Continuously make product innovations to exceed clients' requirements.
- Provide effective customer service.
- Provide fast after-sales service.
- Comply with all regulatory and statutory requirements

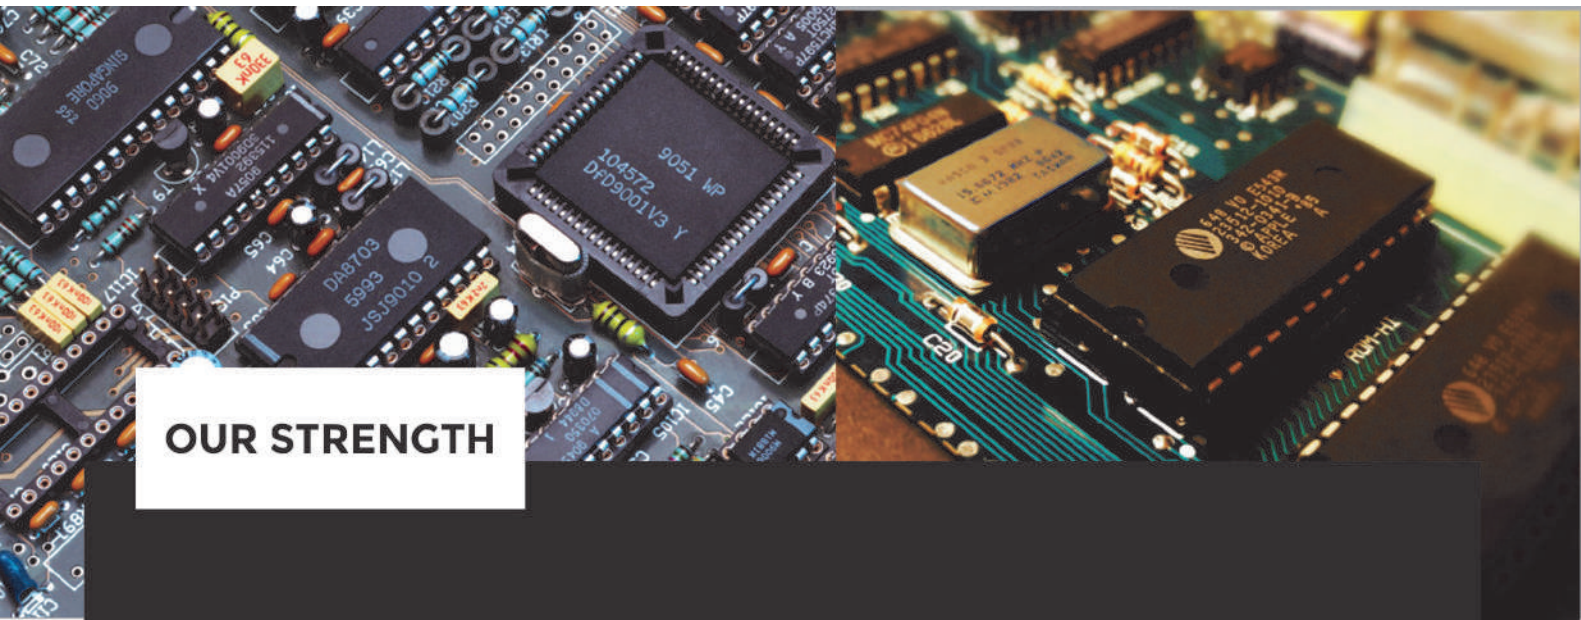

Ahmed Almazroei Metal Industries (AM Industries Factory) pursues the following objectives:

- 100% compliance with all regulatory and legal requirements applicable to the products.
- Attain above 95% of high-level customer satisfaction.
- Minimal customer complaints.
- A fast-handling time of customer complaints.
- High level of competency & skills among its personnel.
- No undue delays in production and installation work.

AM Industries Factory is competent to:

- Design, fabricate and supply Architectural Metalworks, including handrails, balustrade, and cladding.
- Laser-cut stainless steel, aluminum, and mild steel parts.
- Machine high precision milling components.
- Design, manufacture, supply, and install fire-rated doors.
- Fabricate and install bollards.
- Deliver a complete system for training falcons, Saluki, etc.
- Manufacture robot jockeys for camel racing.

## OUR STRENGTH

**CREATIVITY**

**QUALITY**

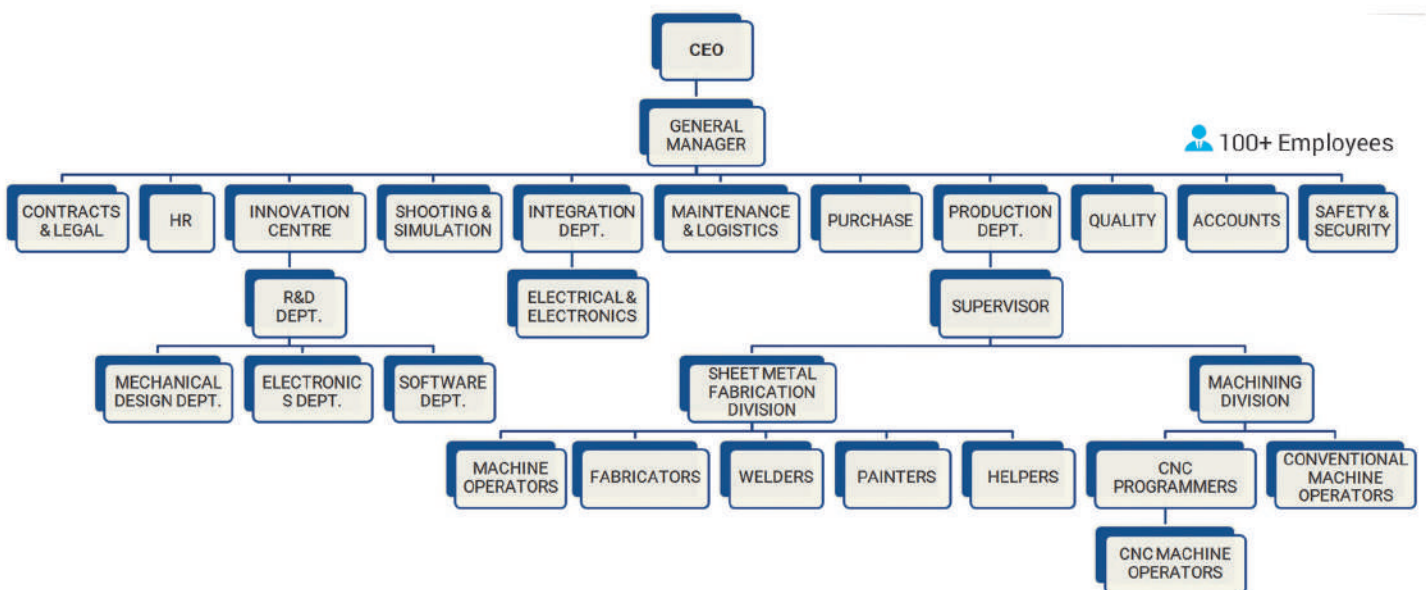

**PLANNING**

**PRODUCTIVITY**

## ORGANIZATION CHART

# OUR VALUABLE CUSTOMERS

For more than a decade our presence in uae market, build the Brand AMI with its own values.

Our company is committed to associate with various government department in turn contributing the UAE nation building various processes and Abu Dhabi 2030

Our proud customers few,

Ministry of Defense United Arab Emirates

Edge

Tawazun

AduDhabi Police

Ministry of Interior

Presidential Guard

Critical Infrastructure & Coastal Protection Authority (CICPA)

Adnoc
